Community Stirred by Brutal Murder of Little Melrose Schoolgirl

WHAT SPURS SEARCH FOR NEWSTOPLATER

MELROSE ATROCITY VICTIM

Continued from First Page.

Attention murder, which has stirred all Melrose, are as follows:

- 1—Discovery of the child's school reader.
- 2—Footprints, clearly outlined, found leading away from the spot.
- 3—Handout, shortly in that used to smother the victim, found on path.
- 4—Footprints, apparently used for a long, found nearby.
- 5—Joseph Wakelin, father of child, gave Mayor Adams the name of a person he suspected.
- 6—Mayor Adams announced that all the machinery of the city will be set to apprehending the criminal.
- 7—No reward will be offered at present.

Mayor Adams, accompanied by Alderman Tibbets, visited the scene of the crime, which was committed, arrived at the Melrose home on Friday last early today. Upon their request, Mr. Wakelin started with them to the back of the lot, and the police were taken to searching for the body.

They were met by two representatives of the AMERICAN, and the entire party from the police headquarters on the road up an incline into the woods. Just before the woods were reached, the body of the child was found.

While she was being carried into the hospital, the child's father, said the child's father, the body was found. I went in here and up the path some distance, and found my daughter's body in that thicket of bushes.

"I brought the body down to Dexter road, and then ran to the house and telephoned to the police. This was about fifteen minutes after the first call, when I had asked the police to search for the body. I am sure that my own daughter and not some other child, was the victim of the crime. I am sure that the crime was committed by a certain man who has been in trouble before. (Here Mr. Wakelin gave the Mayor the name of the man in question.)

MAJOR IS ACTIVE.

"I want the police to question the man whose name I gave. I want

them to find out if he was missing from his work yesterday, and if so where he went.

"I want you to give me all the names of persons you suspect," said Mayor Adams, "and I will not let the city be questioned. As Mayor of the city I have taken the leadership in locating the man who killed your daughter. It is a terrible crime, and I intend to do my utmost to learn who it was that committed the brutal act on the defenseless little girl. The machinery of the city is in motion and it will not stop until the guilty criminal has been accomplished."

Mr. Wakelin then left the party to speak to some friends on Dexter road, and the others began to beat the bushes in the hope of finding more clues.

Suddenly Alderman Tibbets shouted "Mr. Mayor, I've got the book!"

Everyone rushed to the spot, and there, underneath the crumpled green jacket, was the book. Forcing to handle the reader because of finger prints, the party did not disturb it, but left it for the State police, who were waiting.

Later footprints and broken branches were found further on the path, some of the prints, particularly one of a man's heel, were clearly outlined, and Mayor Adams marked them with bits of paper. The police will take impressions of them, and if the book bears finger prints, search for the murderer will be greatly simplified.

MAJOR IS ACTIVE.

Several little heaps of sand, similar to that which was crumpled into the child's mouth and nostrils. These tiny mounds were apparently formed when sand was dropped to smother the victim.

The party then retraced its steps to Dexter road, where Mayor Adams informed Mr. Wakelin of what had been found. He was told by the Mayor that it would not be necessary for him to go to the police station to answer questions.

"I don't want you to think," said Mayor Adams, "that we are not doing anything. I don't want you to think that because they are not found here they are not acting. They are."

He then said that he knew the man who had been in trouble before. (Here Mr. Wakelin gave the Mayor the name of the man in question.)

IDENTIFIER BOOK.
"I tell me, Tibbets," she implored, "have they found any clue to the murderer?"

Alfred Tibbets told of the finding of the book, and Miss Foster said, "It was the reader of the book, and I told her to bring it back as we were short of books and she couldn't get along in her studies."

"She wanted to bring the book back, but she didn't know how to do it when she came in yesterday, and it was again missing I sent her to the school, and she never dreamed there was any danger. Miss Foster told the Mayor that only two boys were missing from the school yesterday, and that both of them were accounted for."

On the return to Melrose, Mayor Adams said that nothing would be done at the present time regarding the offense of a reward.

The fate of little "Tootsie" Wakelin, as her name was, was a pleasant feature, somewhat plump young woman, who was missing from the school yesterday.

When William O'Donnell, forty-five, of No. 12 Cottage street, Everett, was taken into custody on a charge of murder, the police took precautions against violence. O'Donnell was reported to have been seen in the vicinity of the school.

He has long been known as a "tough character." He is reported to have been arrested by a violent electrical shock some years ago and to have been in the custody of the Danvers House Asylum for a while. He was released from the asylum after eight months of confinement, and eight inches in length, his teeth were sharp and his hands were covered with the ends extending beyond both hands.

The police suspect was put through a third degree by Chief George E. Kerr and by Detective William D. Perry. He was examined by Medical Examiner Charles D. Perry and was released and eliminated.

O'Donnell told a straightforward story which was corroborated by the witnesses. He was in the vicinity of the school yesterday, according to Chief Kerr. He was not seen yesterday, and he was not seen yesterday.

When taken he was striding along leisurely with a brick-rolled knapsack in his hand. The ears were plugged with cotton. He has a bandage around his head and his left hand was in the pocket of his trousers.

A second suspect was taken into custody in Melrose yesterday by Chief Marshal Harrington, but later released. He was a white man, about twenty-five, an itinerant peddler. His name was William, who was seen peddling near Boston yesterday.

With them out of the case, the police were baffled last evening until the murder, view, the finger marks in the child's throat and the sailor coat were weighed.

The State and Melrose police today indicated that suspicion centered down to the scene of the tragedy. Houses and sheds in the vicinity were searched, but no one was seen. The child was found in a rather isolated section in the south east part of Melrose, just far from the railroad line. It is two miles from the New Center, and the nearest walk from the end of the trolley line.

New Light on Louis D. Brandeis

Louis D. Brandeis is today the man whom New England delights to honor.

He is the focus of attention; and next Sunday's AMERICAN will recognize that fact by presenting a comprehensive and authoritative survey of a phase of Mr. Brandeis' life that has never been written of.

The Brandeis article will be illustrated with photographs which you have never seen before; photographs with an interest and an appeal that is all their own.

This is a feature which persons who keep in touch with the progress of big men and big events cannot afford to miss. To secure it, you need only order now so as to be sure and GET THE SUNDAY AMERICAN.

WORKERS CHEER CREDIT UNION FUNDS SUCCESS

With the end of the Massachusetts credit union campaign to raise \$100,000 in two days, a public jubilation was held in Faneuil Hall, and was attended by more than 1,000 people who are active in the work of the union. In response to appeals made by prominent speakers the sum of \$10,000 was pledged in less than five minutes by those present.

The speakers included Miss Mary Allen, author of "The Promised Land"; Felix Vorshlag, president of the Massachusetts Credit Union; Nathan Salinger, general campaign manager; Joseph W. Quinn, treasurer; Philip Davis, executive director; and others. The campaign was the first of its kind in the United States, and was the occasion for an enthusiastic display of the credit union flag.

Every evening in the exhibition of Louis D. Brodwin by the United States government, the credit union flag was displayed in the windows of the building. A telegram was sent to the President of the United States, congratulating him on the success of the campaign.

The campaign has brought forth a new spirit of cooperation among the workers of the city. The managers of the campaign, in particular, deserve a great deal of credit for the success of the campaign. The campaign was a great success, and the credit union is now a reality in the city.

'BOOM MOSCOW' AGENT IS DINED

Mayor Curley today tendered a luncheon at the Parker House to Henry C. Leader of the Boom Moscow (Russia) Board. It was given out that the purpose of the luncheon was to promote trade between Boston and Moscow.

About twenty were invited to the luncheon. The list included some of the most known merchants and bankers in the city. Among those invited were: John N. Cole, Joseph H. O'Neil, Eugene W. R. Thayer, Matthew C. Evans, Charles W. Reed, Luke D. Sullivan, Donald Macdonald, Thomas Porphy, George W. Winslow, William H. Connelley, Benjamin Joy, Howard Connelley, Edward M. Knight, Joseph W. Powell, William A. Gaston, Francis A. Connelley, Major Henry L. Higgins, William J. D. Gaffan, Alfred W. Donovan, Charles L. Burwell, and Fred and Gus Currier.

B. & M. Hearing June 12

The Public Service Commission today set June 12 as the date for the hearing of B. & M. stockholders for the extension of the time for one year from July 1, 1916, to carry out the railroad reorganization made permissible by the Legislature last year.

GERMANS WIN GREAT SEA BATTLE

continued from First Page.

Major General Pommer, during the night by a torpedo. "The fate of His Majesty's ship was not known, and some of our torpedoes, which have not returned, is unknown. "The high sea fleet today returned to port.

WARSHIP CHIEF LOST. The British ships reported lost the Warship is the most important. The Warship is a sister ship of the Queen Elizabeth, which was completed since the beginning of the war. She carried eight 15-inch guns, besides a large battery of small ordnance. She was 400 feet long and displaced 23,000 tons. She was designed to make a speed of twenty-five knots, with the Queen Elizabeth, was probably the biggest and most powerful vessel in the British navy.

The British ship was also sunk since the beginning of the war. The ship was a sister ship of the Queen Mary, which was also sunk. The ship was a sister ship of the Queen Mary, which was also sunk. The ship was a sister ship of the Queen Mary, which was also sunk.

NO SEX ON UNDETECTABLE. The battle cruiser Undetectable was an older vessel, but was still of the highest power. She was completed in 1911. She carried eight 15-inch guns and a small battery, was 378 feet long, and a displacement of 14,000 tons, and was designed for a speed of 25 knots. She reached a speed of about 25 knots in later trials.

The Undetectable and New Zealand were sister ships. The Undetectable was a sister ship of the Achilles type were completed about 1910, and included the Achilles, Godolphin, Natal and Warrior, the latter having been lost early in the war.

These vessels were good for over 25 knots, carried 700 tons of armor, were 435 feet long and carried a main battery of six 15-inch guns. The Undetectable and Natal were sister ships. The Undetectable was a sister ship of the Achilles type were completed about 1910, and included the Achilles, Godolphin, Natal and Warrior, the latter having been lost early in the war.

A German battleship Pommer, torpedoed and sunk, was completed in 1914, and carried four 15-inch guns, displaced 15,000 tons and carried a complement of 225 men. The Wiesbaden is a cruiser of 2,715 tons. The Prinz Eitel Friedrich is a cruiser of 2,715 tons.

G. M. POLLOCK IS
REVERE SUICIDE

George M. Pollock, a hardware dealer, committed suicide at his home, 804 Waverley street, Friday, early today by shooting himself in the head, according to the report of the police on the case. He was 70 years old and was married. Medical Examiner Marzani was notified.

CHILD HIT BY AUTO ON WAY FROM SCHOOL

While running home from school Anna Smith, six-year-old daughter of Mrs. Sarah Smith of Nahant road, Nahant, was run down and probably internally injured by an automobile owned and operated by Rev. Henry A. Middleton of Maple avenue, Medford. The girl was removed to her home.

Cocoanut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with. Moist soaps and prepared shampoos count too much against this. This dries the scalp, makes the hair brittle, and is very harmful. Just plain multi-refined coconut oil (which is pure and entirely greaseless) is much better than the most expensive soap or anything else you can use for shampooing. It can thus positively insure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rises out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it the soft, silky, bright, fluffy and easy to manage.

You can get multi-refined coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Advertisement

Flood Control of the Mississippi River a National Benefit

GENTLEMEN OF THE CONGRESS OF THE UNITED STATES:

Those of you who read the letter of Mr. Hearst and the editorial from the New Orleans Item, which followed it, in yesterday's AMERICAN, will doubtless agree that the Mississippi flood-control appropriation is at least not selfish "pork-barrel" legislation.

As Mr. Hearst said in his letter:

"This internal coast line is as important as our external coast line. Its construction and maintenance in safety and security are a vital part of the preparedness program and a vital part of the commercial program of the United States—of the whole United States, not merely a part of the United States."

And the editorial from the Item, which followed Mr. Hearst's letter, under the caption of "The Case Against Flood Control," truly says:

"The Mississippi's just claims upon the nation, as a highway of commerce, and the just claims of the suffering people of the lower river to a fair share of protection from the nation which pours its waters down upon them—this subject matter stands upon ITS OWN BOTTOM before Congress and the country. And the country, represented by the three great contending political parties, has recognized this people's claim."

"There is no reaching, no grabbing, no trading. The proposal stands upon its own merits, and demands support on them, for its value to the nation's commerce as a whole and for its conservation of the enormous taxable national values that the increasing floods have desperately jeopardized."

"The work it proposes to do, these merits once conceded, is not to be done on any ANNUAL plan of pork-barrel accident or caprice, but on a fixed, systematic and sustaining basis."

Senators and Representatives, we do not need to tell you that many appropriations for waterways and harbors are passed that should not be passed. Doubtless every one of you has been practically compelled, at some time or other, to vote for items of which you did not approve in order to insure the passage of rightful and necessary appropriations. And on account of this tickle-me, Tickle-you practice the public has become excessively suspicious of ALL river and harbor expenditures. So we can readily see how you might court unpopularity even by voting a good and necessary appropriation like this appropriation for the continuous control of the floods of the Mississippi.

For this reason, Senators and Representatives, we add to the petition of the New Orleans Item and the petitions of other newspapers and of business men and organizations throughout the territory directly affected the earnest petition of the Hearst newspapers that you will enact this measure insuring the safety and prosperity of the lower Mississippi region.

We submit, gentlemen of the Congress, that the argument that the expenditure of this money upon the Mississippi River would result in private gain by making lands that are now subject to overflow safe from overflow, and so enhancing their productiveness and selling values, is precisely one of the arguments which should have great weight in inclining you favorably toward the bill. It is one of the finest achievements of constructive statesmanship to add to the producing acreage of any country. For the prosperity of any people is powerfully promoted by additions to its agricultural productiveness. And private gain is a very desirable thing when it is the natural result of public improvement.

We call your attention, gentlemen, to a public enterprise for which many of you voted—the government railway now being constructed in Alaska. That is a public enterprise for the public good, and certainly the public good is not decreased because many private claim owners and mine operators will find the values of their properties greatly increased by the railroad.

Now, then, if it is right and is good policy to build a RAIL HIGHWAY with public money in Alaska to create public and private land values, why on earth should it be an argument against spending public money on our great WATER HIGHWAY that the expenditure would create private as well as public land values?

Why is the sauce which is so good for the Alaska goose so bad for the Mississippi gander?

In your own States you have taxes levied for the construction and upkeep of highways, and the city taxpayer, who may never see a country highway in his life, must pay his pro rata share. Why? Why, because he obtains as much benefit indirectly as the country resident obtains directly from good highways. The city man's food and necessities are cheapened and bettered by cheaper and better highway transportation facilities, and the values of his own business and his own property are enhanced.

Now, precisely upon this principle it is right that the whole country should pay for the upkeep of our great national water highways. The flood-control of the Mississippi is just as beneficial to the people of Boston, in the long run, as it is to the people of New Orleans or of Memphis.

Gentlemen of the Congress, it does seem to us that THE INTEREST OF THE WHOLE NATION demands the passage of this Mississippi flood-control measure.

HIS BUSY DAY

Mike

By William F. Kirk

MY bulldog Mike—you see him there? He isn't much to look at.

He wasn't made for dress parade—Nor yet to throw a book at!

Those scars? He got 'em in a jam; They're badgers of his pluck.

Small kids—at play—down town the day Big Ole ran amuck.

Big Ole was a stowaway.

And the sign was blazing down: 'Don't' went his head—with a bar of lead.

He clubbed his way up town.

He made his way with lead and knife.

And the cuts—you see 'em now; But knife and all, the man quit first!

'Cause a bulldog don't know how.

So old Mike—course his looks are spoiled.

But he never was much in so; And you can bet he's the neighbors' pet.

Which a hero had order be.

When my time comes for the Judgment roll, I'll talk to be with Mike.

Then that says a dog ain't got no soul; Can hang out where they like!

How We Impose on Our Feet

By Woods Hutchinson, M. D.

The World's Best Known Writer on Medical Subjects

PART TWO.

ONE trouble with our feet is that we "thump" too much, and walk far too heavily on our heels, with our toes turned out.

To hear some people talk you would think they had bristled suspended from their ankles with string, instead of feet, or were dropping a flatiron on the pavement every thirty inches.

When we are doing that strenuous automatic balancing stunt known as standing still, leaving only two feet, our firmest and steadiest stand can be got either by setting our feet well apart like a wrestler, or, failing this, turning our toes out so widely as possible.

As sprawling wide looks undignified, we hold up our head, turn out our toes, thrust our shoulders back, and are very proud of our dignified and spirited pose. But we should never forget that this head-erect, chest-out like a poster pigeon, attitude, though harmless in moderation, is only a pose, and should not be kept up for more than a few minutes at a time. The worst of it is, we are so pleased with our appearance that we try to put this pose on wheels and galvanize ourselves into a walk in this sodden, ramrod-his attitude, and then we begin to get into trouble at once.

For the purpose of a brief parade down Main street, this head-up, shoulders-back, toes-out gait is a great mental exhilaration and harmless in moderation, but we do not breathe any better, although we seem to expand our lungs more, and our circulation, as French and English army surgeons discovered years ago, is hindered instead of being improved, and we push our feet fearfully. Because every step means "slogging" our whole weight upon the heel, with the arch of the foot turned out and then rocking over and pitching off from the broad side of the foot again, straining every tendon and ligament in it.

Legitimate as the march is now instructed to strut erect through the towns, but as soon as they strike the open country to bend their knees, turn in their toes, lean head and shoulders forward, swing their arms loosely at the sides with elbows turned out, and literally "wade" over the dusty road.

A Tribute to Robert M. Wilcox

ELLA WHEELER WILCOX AND ROBERT M. WILCOX

IT is doubtful if the passing of anyone short of a popular ruler ever brought forward such an overwhelming expression of sincere sorrow at his loss, from all classes, as has followed the passing to a higher life of Robert M. Wilcox.

Men, women and children who knew and loved him have availed this strain into a absolute an-athem of praise of a rare and well-beloved character. Myself, an intimate friend in the household for several years, I would add my little word of appreciation, respect and sorrow. If ever my own life and efforts are crowned with accomplishment, I shall feel it is due in largest part to the wise encouragement, wonderful sympathy and responsiveness and stimulating power of suggestion of this rarely tactful and keenly intellectual man. Ella Wheeler Wilcox is known to the whole world through her helpful, inspiring work, while her no less inspiring life companion was known only in the privileged few, but his influence was nevertheless as vital if not so widespread.

I once talked with a successful young business man, who said: "The first uplift and help in my life came when I was an errand boy in a silver factory in the

South and Robert M. Wilcox came there on a matter of business. He was hurrying home within twenty-four hours, yet he found time to ask my name, to speak a word of praise and to offer helpful suggestions. It changed the current of my whole life."

This is only one of many expressions of practical Christianity with which were characteristic of Robert M. Wilcox in his daily living. During thirty-two years of married life, the most ideal conditions existed in every home and his gifted wife, giving her an absorbing manly devotion, he yet gave her absolute freedom to use her talents and develop her genius. First of all, her loyal lover, he was that rarest combination of wise friend, careful adviser and sincere admirer. It was he who planned the foreign travel to enlarge her viewpoint, he who suggested and encouraged her profoundly philosophical studies, he who visualized and created the ideal environment of the home.

What greater monument needs any man than such tender memories in the hearts of all who knew and loved him?

WILLIAM HELEN DAVIS.

In-Shoots

The cheapest kind of a stool picon is the man who becomes a candidate for office to aid the candidacy of another.

Safety test signs are apt to be forgotten when a fellow holds three aces in a poker game.

It is said that the boy never looks up to see who is throwing down the account. In some respects he is almost as ungrateful as man.

If a man does not wear epaulettes or sport a title of some kind, he will derive but little pleasure from a visit to his home town.

What Makes a Baby the Best?

A Cambridge baby has been selected by a corps of judges as the "best" among eight hundred entered in the Boston AMERICAN'S contest.

Every father and every mother in Greater Boston has a notion their baby would compare favorably with this wonder-child.

In next Sunday's AMERICAN these fathers and mothers will find full information as to the Best Baby's measurements, routine, habits and food—and every father and mother can then compare for themselves. To do so, they need only order now so as to be SURE AND GET THE SUNDAY AMERICAN.
